## Education

---

**Mahatma Gandhi Central University, Bihar**  
B.Tech in Computer Science and Engineering  
CGPA: 8.65

2022 – 2026

## Technical Skills

---

- **Languages:** C, C++, Python
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Technologies:** Socket.IO, REST APIs, JWT Authentication
- **Tools:** Git, GitHub, VS Code, Cloudinary

## Projects

---

### GupShup – Real-time Chat Application

- Developed a real-time chat application using MERN stack with Socket.IO for low-latency communication
- Implemented features like typing indicators, online/offline status, and read receipts
- Integrated JWT-based authentication with secure session handling using HTTP-only cookies
- Designed MongoDB schema for efficient message storage and retrieval
- Enabled image sharing using Cloudinary with optimized media handling
- Utilized Zustand for global state management to improve frontend performance

### GreenCart Grocery Delivery System

- Engineered a full-stack grocery delivery platform using React, Node.js, Express, and MySQL
- Designed RESTful APIs for managing users, products, and orders
- Developed an admin dashboard for efficient inventory and order management
- Focused on scalable backend architecture and optimized database queries

## Internships & Training

---

### C-DAC Noida (Cyber Gyan Project)

Sept 2024 – Oct 2024

- Completed training in Ethical Hacking and Penetration Testing
- Gained hands-on experience in network security, vulnerability assessment, and threat analysis

### C-DAC Patna (Full Stack MERN Development)

Mar 2025 – Apr 2025

- Completed MERN stack training with Grade A
- Built full-stack applications integrating frontend and backend systems

### Bharat Intern (Web Development)

Oct 2023 – Nov 2023

- Developed responsive web interfaces using HTML, CSS, and JavaScript
- Strengthened understanding of UI/UX and frontend design principles

## Achievements

---

- Qualified GATE 2025 and GATE 2026, demonstrating strong foundation in core Computer Science subjects

## Additional Information

---

- Actively improving skills in Full-Stack Development, AI & Data Science, and Real-time Systems
- Interests: Software Development, Web Technologies, Cybersecurity, Artificial Intelligence
